

Derek Tink

Digital IQ - IQ Hub

Derek is an experienced business & community advisor with a proven track record of helping business owners and startups achieve their business objectives.

He has a career spanning banking, investor relations, media, software technology and most recently, delivery of economic development programs within the region.

Derek understands the challenges of operating and managing small business; involved with family business across retail, health, agriculture and travel. He has founded a number of startup enterprises with a regional base, pursuing national to global opportunities.

His advisory knowledge sets include: business development, regional relocation strategy, strategic planning, research and digital development.

He holds a Bachelor in Business, a Master of Commerce and is currently completing a Master of Business Research; researching frameworks for developing investment opportunities within regional areas.

My interest in supporting the Tamworth Business Chamber via the board includes pursuing specific initiative connected to regional promotion, investment attraction, connectivity and projects that align to regional, state and federal development objectives.
